Date : 12th March 2020

Dear Industry Heads,

Govt of Telangana is actively engaging with Industry bodies, to review, monitor & control Covid-19 outbreak in India. While Telangana had witnessed only one positive case of Covid-19 as on date, there has been a panic situation in IT corridor last week, due to one un-confirmed case that was reported on 4th March 2020, which was ultimately reported as negative by NIV-Pune.

Accordingly, a Coordination Committee for COVID-19 was formed with representation from Health Department, Cyberabad Police, ITE&C, GHMC, TSIIC, Hysea, SCSC & Nasscom, with CP Cyberabad Sri VC Sajjanar as Nodal Officer and SCSC as Liaisoning body. As a proactive measure, the Coordination Committee for COVID-19 has released the **“Standard Operating Protocol”** covering Preventive measures, Guidelines for scenarios to be dealt with by IT companies & IT Parks.

While the current situation is quite normal and business as usual for the IT Industry at Hyderabad, the committee felt there is a need to develop a strong communication channel for better coordination, should there be any presumptive case, that could be reported in near future. Accordingly, I request you to nominate one designed point of contact (SPOC) from your organization, who will be responsible to communicate with us, in case a need arises so.

SPOC DETAILS FOR COVID-19 COORDINATION	
Name of the Organization	
Address	
Name of the SPOC	
Designation	
Mobile Number (Primary & Secondary)	
Email ID	

Ensure to share this information positively by 13th March 2020. You may share the details at info@scsc.in

With Regards,
Commissioner of Police, Cyberabad
Chairman-SCSC
